Re: Notice of *Ex Parte* Presentation, CG Docket No. 02-278 and CG Docket No. 17-59

Dear Ms. Dortch:

On November 30, 2017, Margot Saunders from the National Consumer Law Center, George Slover of Consumers Union, Christine Hines of the National Association of Consumer Advocates, and Remington Gregg of Public Citizen met with Nick Degani of Chairman's Pai's staff.

In our discussion, we urged the Commission to issue effective regulations limiting calls made by debt collectors of federal debt, citing the problems that are being experienced by consumers, as described by our request for enforcement of the Telephone Consumer Protection Act against Navient.¹

We also urged that the Commission proceed with its development of a database to deal with reassigned numbers, as articulated in our reply comments in that proceeding.²

If there are any questions, please contact Margot Saunders at the National Consumer Law Center (NCLC), msaunders@nclc.org (202 452 6252, extension 104).

This disclosure is made pursuant to 47 C.F.R. §1.1206.

Thank you very much.

Sincerely,

Margot Saunders
